

21 March 1966

MEMORANDUM FOR: Inspector General

SUBJECT: Industrial Security Survey

1. I talked to Hank Knoche today, as agreed. Hank said that he had discussed the points in your January 26th memo with Mr. Helms and Col. White, and they decided they would not push them at this time.

2. Hank thought that the memo of January 12th from the DDS approved by the DDCI was about 90% of what was needed and therefore didn't push for more.

3. He said he didn't know how Col. White wanted to follow up on these IG survey matters but would be glad for any suggestions you might have.

4. I think it would be a good idea for you to informally suggest to Col. White that he ask the Director of Security for a report on how things are moving, by about September 15th.
